Production: 4000 cases

The families 20 hectares of vineyards are comprised of 15 hectares of Pinot Noir and 5 hectares of Chardonnay. Of those, 13 hectares are Grand Cru, 3.4 are at the Premier Cru level with the remainder being *non-classé*. The winery embraces sustainable farming and practices *Culture-Raisonnée*, along with harvesting all of the grapes in small baskets entirely by hand. Their vineyards are also the premier source of red wines used in the *Rosés d'Assemblage*, supplying themselves and many other well-known Champagne houses.
